Full Stack Web Developer

CAREER OBJECTIVE

Frontend Developer with expertise in building scalable, responsive web applications using modern technologies. Experienced in React, TypeScript, SCSS, and Micro Frontends architecture with Single-SPA. Combines strong technical skills with a Bachelor's degree in Artificial Intelligence, 900+ hours of intensive full-stack development training, and proven ability to deliver production-grade solutions in agile environments. Demonstrated success across multiple full-stack projects with focus on clean code, user experience, and performance optimization.

Technical Skills

Frontend Technologies
- **Core:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/Sass
- **Architecture:** Micro Frontends, Single-SPA, Component-Based Architecture
- **Frameworks/Libraries:** Bootstrap, Tailwind CSS
- **Build Tools:** Webpack, Vite, npm

Backend Technologies
- **Runtime/Framework:** Node.js, Express.js
- **Databases:** PostgreSQL, MongoDB, SQL/NoSQL
- **APIs:** RESTful API design, API integration

Development Tools & Practices
- **Version Control:** Git, GitHub, GitLab
- **Development:** Visual Studio Code, Postman, pgAdmin
- **Methodologies:** Agile, Scrum, CI/CD
- **Testing:** Unit testing
- **Other:** WordPress CMS, Responsive Design, Cross-browser Compatibility

PROFESSIONAL EXPERIENCE

Frontend Developer | Digitinary
March 2025 – Present | *Full-time*
- Develop and maintain scalable frontend applications using React, TypeScript, and SCSS in a Micro Frontends architecture with Single-SPA
- Collaborate with cross-functional teams to deliver production-grade solutions that meet business requirements and user needs
- Implement responsive, accessible user interfaces following modern web standards and best

practices

- Participate in code reviews, technical discussions, and agile ceremonies to ensure code quality and team alignment

- Optimize application performance and user experience through efficient component design and state management

Frontend Developer Intern | Digitinary
November 2024 – March 2025 | *Internship*

- Contributed to the development of client projects using React and modern frontend technologies

- Gained hands-on experience with production codebases and enterprise development workflows

- Participated in daily standups and sprint planning sessions as part of an agile team

Full-Stack Development Trainee | Coding Academy by Orange
May 2024 – November 2024 | *Intensive Training Program*

- Completed 900+ hours of intensive full-stack web development training in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT)

- Developed and deployed 5 major web applications utilizing modern frontend and backend technologies

- Implemented database solutions and RESTful APIs to create full-stack applications

- Collaborated on team projects using Agile methodologies and Git version control

Projects

Beauty Salon Booking Platform [Git hub](#)
- Developed a comprehensive booking system with role-based access control for customers, salon owners, and administrators
- Integrated secure payment processing with Stripe API and implemented real-time availability updates
- **Tech Stack:** React, Node.js, Express, MongoDB, Stripe API

Future Energy - Eco-Action Tracker [Git hub](#)
- Created an innovative platform combining fitness tracking with environmental sustainability metrics
- Built features including community challenges, admin dashboard, marketplace, and impact reporting
- **Tech Stack:** React.js, Tailwind CSS, MongoDB, Node.js, Figma

Jordanian Election Platform [Git hub](#)
- Engineered a secure platform to enhance voter awareness and promote transparency in the electoral process
- Implemented role-based features for voters, candidates, and administrators with real-time data updates
- **Tech Stack:** React, Express, PostgreSQL, JWT Authentication

Star Cinema - Event Ticketing Application [Git hub](#)
- Built a streamlined ticketing platform featuring real-time seat selection and secure payment processing

- Developed separate customer portal and admin dashboard for comprehensive event management
- **Tech Stack:** React.js, Redux, Node.js, Payment Gateway Integration

Audify - Podcast Platform [Git hub](#)

- Developed a user-friendly platform for discovering and streaming podcast content across multiple genres
- Implemented advanced search functionality and personalized recommendations
- **Tech Stack:** JavaScript, HTML5, CSS3, REST APIs

EDUCATION

Bachelor in Artificial Intelligence and Robotics

Balqa Applied University | October 2019 – September 2023

Full-Stack Web Development Certification

Coding Academy by Orange | May 2024 – November 2024

Intensive program in collaboration with [Simplon.co](#) and PSUT

SOFT SKILLS

Technical:
•Problem-Solving
• Critical Thinking
• Data Analytics
• Requirements Analysis
• Attention to Detail

Interpersonal:
•Team Collaboration
• Effective Communication
• Adaptability
• Customer-Centric Approach
